

DENVER LAWYER VISITS ORCHARD

Transacted Some Civil Business for the Suspect Under the Name of Hogan.

PRIVATE TALK WAS DENIED

SPOKANE ATTORNEY FAILED TO APPEAR.

Boise, Ida., Jan. 6.—James J. Sullivan, a Denver attorney, arrived in Caldwell today and identified the suspect held for the murder of ex-Governor Steunenberg as Thomas Hogan, a man whom he knew in Denver in connection with some civil business.

When he met Orchard, or Hogan, this morning, the conversation between them was as follows:

Sullivan—Hello, Tom. What are you doing here?

Orchard—I was arrested for the assassination of Frank Steunenberg. I am going to a telephone office if you hadn't showed up today.

Wanted Private Talk.

Orchard, or Hogan, as he persists in calling himself notwithstanding his statement that he is Harry Orchard, asked that he might have a private interview with Sullivan. It was explained that, under the law of this state, a non-resident attorney could be denied an interview with a prisoner in private, and that any non-resident lawyer was obliged to secure an Idaho attorney as his associate in any case.

Sheriff Was Present.

Sullivan went to the jail again this afternoon and sought to secure a private interview with Orchard. The sheriff refused to grant it. An interview between Orchard and Sullivan then occurred in the sheriff's office, with the sheriff and one or two other officers present. Sullivan said that Orchard had no idea of taking up the defense. He did not come for that purpose, he said. He was willing to extend any favor he could, but he was not to be regarded as an attorney in the case.

Sent for Legal Help.

Orchard then wrote a telegram to the law firm of Robertson, Rosenbaum & Minor, as follows:

"Let me know when you will come to defend me immediately. I can make other arrangements." (Signed) "THOMAS HOGAN."

The dispatch was sent off about 6:30 p. m. Up to 10 o'clock no reply had been received.

Would Not Take the Case.

In a talk this afternoon Mr. Sullivan said he left Denver on a business trip to Baker City, and determined to stop over at Caldwell only to see if he could identify Thomas Hogan as the man who had conducted some civil business in Denver. Sullivan added he would go to Baker City tomorrow. Five thousand dollars, he said, would not tempt him to take this case.

There have been no developments in the case, though the officers claim they are making satisfactory progress trying out the chain of evidence against Orchard or Hogan.

SUBDUED EXCITEMENT.

Something Expected to Happen in Caldwell Very Shortly.

(Special to The Herald.)

Boise, Ida., Jan. 6.—Citizens of Caldwell seem to be in a state of subdued excitement generally. Since the first horrible news of the murder of ex-Governor Steunenberg came out not a day has passed when so little talking has been done here and there among the citizens as seen discussing prospects and conditions of the murder case. But the general excitement was never stronger than today. Every one seems to feel that they are standing upon the threshold of some very important development.

That Captain Swain and his entire force are working hard and straining every energy to fathom some important mystery in connection with the case is evident. Every officer is "sawing wood."

An Air of Mystery.

"There is something doing," said Swain today, "I cannot give you much news now, but there will be plenty for you soon."

What Sulphur Does

For the Human Body in Health and Disease.

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur and molasses every spring and fall.

It was the universal spring and fall "blood purifier," tonic and cure-all, and mind you, this old-fashioned remedy was not without merit.

The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any effect.

Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form, and that is Stuart's Calcium Sulphate.

It is far more effective than a tablespoonful of the crude sulphur.

In recent years, research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphate) and sold in drug stores under the name of Stuart's Calcium Wafers. They are small chocolate-coated pellets and contain the active medicinal Sulphur and Calcium, highly concentrated, effective form.

Few people are aware of the value of this form of sulphur in restoring and maintaining bodily vigor and health; sulphur acts directly on the liver, and excretory organs and purifies and enriches the blood by the prompt elimination of waste material.

Our grandmothers knew this when they dosed us with sulphur and molasses every spring and fall, but the crudity and impurity of ordinary flowers of sulphur were often worse than the disease, and cannot compare with the modern concentrated preparations of sulphur, of which Stuart's Calcium Wafers is undoubtedly the best and most widely used.

They are the natural antidote for liver and kidney troubles, cure constipation and purify the blood in a way that often surprises patient and physician alike.

Dr. R. M. Wilke, who has been experimenting with sulphur remedies soon found that the sulphur from Calcium was superior to any other form. He says: "For liver, kidney and blood troubles, especially when resulting from constipation or malaria, I have been surprised at the results obtained from Stuart's Calcium Wafers. In patients suffering from boils and pimples and even deep-seated carbuncles, I have repeatedly seen them dry up and disappear in four or five days, leaving the skin clear and smooth. Although Stuart's Calcium Wafers are a proprietary article, and sold by druggists, and for that reason taboed by many physicians, I know of no safer, more reliable for constipation, liver and kidney troubles, and especially in all forms of skin disease, as this remedy."

At any rate people who are tired of pills, cathartics and so-called blood "purifiers," will find in Stuart's Calcium Wafers a far safer, more palatable and effective preparation.

soon. We know now where we are at and we have our work laid out for us. There is a lot of grubbing to do. I can say we are hard at work and with definite results in view." It is the opinion of leading men here that Captain Swain has struck what might be termed a "blazed trail." Rumor and unimportant evidence hold no inducements to attract the concern of his detectives now. They seem to be working with a definite object in view. What evidence is being gathered must be of a very important nature, for it is being closely guarded.

Chemist at Work.

C. F. Jones, the chemist, arrived at Caldwell from the state university today, and will be here for some time. His work will be done there. The powders and other substances found at different places among Orchard's effects or in the room he occupied will be taken along in seventeen packages. These have been sealed and numbered. Dr. Jones is receiving for each number.

There are now only three suspects held in jail. These are, besides Orchard, John Doe (as he is called), who was arrested at Nampa, and Campbell, who was captured at Council. There was a mistake made with respect to the other man arrested at Council and afterwards released. It was Harold, who had the scarred face, and it was he who was set free after satisfying the officers he had nothing to do with the assassination. It is expected three more suspects will be taken into custody tonight.

EXCURSION TO MEXICO Via Oregon Short Line.

Only \$35.25 from Logan, Ogden, Salt Lake and intermediate points to Mexico City. Tickets on sale Jan. 10; sixty days limit. Diverse routes are laid out to Denver. See Short Line agents, City Ticket Office, 201 Main street.

\$33.00 ROUND TRIP To Los Angeles, Land of Perpetual Sunshine.

Auspicious Elks' lodge of Salt Lake, on Feb. 10, via Salt Lake Route. Tickets good thirty days. See A. W. Raybould, or phone 1886. You'll have to hurry.

HAS FIGHT WITH HOLD-UP Charles Horsley's Overcoat Shot Twice by Robber; Who Is Frightened by His Own Shots.

Charles A. Horsley, 20 years of age, fought off a hold-up in front of the Washington school about midnight and in the struggle the robber's gun was discharged, hitting Horsley in the back of his overcoat in two places. The robber bolted across the street and Horsley never looked back until he reached his home, 602 West North Temple street. Just as Horsley turned the corner at Peach and First North streets, he noticed a man coming from behind the Washington school. Thinking that perhaps it was the night watchman, he paid but little attention to him. The man walked out to the street and as Horsley passed, commanded him to hold up his hands. Horsley backed off but with his hands part way. The man had his gun on him and grabbed him by the wrist with his other hand. As the horsley made a swing at the fellow but the man saw it coming and rushed in close to him. The man evidently pulled the trigger and the gun went off. The bullet went through Horsley's overcoat and the powder singed the coat in several places.

The accident seemed to startle the hold-up as well as Horsley and he turned and ran up First North street. Horsley lost no time in getting away. When he reached his home he telephoned the police and asked for a search warrant for the man who had shot at him. He thought the man was trying to run a bluff. The man was about five feet seven inches in height and was dressed in overalls and a black shirt. He wore a slouch hat and had no mark over his features. Horsley says he can identify the man if he sees him again. A search was made in the direction of the Oregon Short Line north yards but without result.

EUREKA'S NEW COUNCIL.

Mayor Starch Names His Committee Appointments.

Eureka, Jan. 5.—The new city council met this evening and Mayor Starch appointed the following committees:

Claims and Accounts—A. Gourlay, Charles Zabriskie and Gus J. Henroid.

Fire and Water—Gus J. Henroid, Charles Zabriskie and W. F. Shriver.

Sanitation—William Tite, Alex. Gourlay and Charles Zabriskie.

Streets, Alleys and Bridges—Charles Zabriskie, Gus J. Henroid and Alex. Gourlay.

Licenses—W. F. Shriver, Gus J. Henroid and William Tite.

City Property—William Tite, W. F. Shriver and Alex. Gourlay.

Finances, Auditing and Building in Fire Limits—W. F. Shriver, Gus J. Henroid and Charles Zabriskie.

Lewis—Alex. Gourlay, William Tite and W. F. Shriver.

The reports of the various city officers were submitted and the bills for the month of December were ordered paid.

City Watermaster Sneddon's report was encouraging, showing the receipts to be for the month of December, \$44,160, and expenditures only \$25,68. All taxpayers no matter to what party they belong, are pleased to see that the management of the water system is in the hands of a capable man, and that there is some bright hope that the indebtedness of the city has incurred on account of the water system, will soon be wiped out.

THE CHAMBERLAIN MUSIC COMPANY

This is the name of the company that is successor to the Chamberlain at 51 Main street. Mr. John M. Chamberlain, the manager of the company, has had thirty-five years' experience in the music business and feels amply qualified to charge upon the success of the original firm.

At the address above given, the company maintains one of the largest piano parlors in the city, carrying a large stock of high-grade as well as medium priced instruments. The assortment as well as the makes represented are such as to fully satisfy the needs of the general public, and Mr. Chamberlain feels that with the present stock and the high opinion of the public in regard to the quality of the firm, that a much larger and stronger business will be established within the year.

Mr. Chamberlain urgently requests his many friends to call and interview him on what he believes the best piano stock in Salt Lake—and be sure and bring their friends. Satisfaction and honest dealing he guarantees to every customer.

FRAULEIN STOLLE ON ART

Lectures on "New Friends and Old" Under Patronage of Local Artists.

Fraulein Antonie Stolle, a graduate of the Royal Art Academy of Berlin, lectured in Burrall hall last night to a good sized audience on "New Friends and Old in the Realm of Art."

Her lecture was illustrated by lantern slides in which many new and old masterpieces were presented in their original coloring. The lecture was under the patronage of the Utah Art Institute, the Society of Utah Artists and the Arts and Crafts club.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

P. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out all obligations made by him.

WALDING, KINMAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 50 cents per bottle. Sold by all druggists.

Take Hall's Family Pills for constipation.

SERVED HIS TIME.

Jefferson, Mo., Jan. 6.—Edmund Berch, sentenced to the penitentiary for three years upon conviction of having been a municipal bootler, was released from prison today, having completed a two years' sentence under the three-quarters law. Berch is in poor health.

ARE FINED FOR COASTING

Twenty-Three Youngsters Plead Guilty Before Judge Brown in Juvenile Court.

Twenty-three repentant youngsters faced Judge Willis Brown in the juvenile court yesterday after having learned that coasting is against the law in Salt Lake City, admitted their guilt and promised not to offend again. Each was fined 50 cents, some of them paid their fines and the others promised to appear with the money within a stated time. The twenty-three were arrested by the police Friday afternoon and evening following the death of a little Louis snowball.

The police are determined to stop coasting within the city limits. The ordinance on the subject is clear. It makes it unlawful to "coast or slide down hill with any sled, sleigh, toboggan or vehicle upon any public street, sidewalk or alley within Salt Lake City." The ordinance empowers the mayor to authorize by public notice or proclamation the use of designated streets or avenues for coasting during the winter season. No such proclamation has been made this season, and all coasting is, therefore, unlawful. Grown persons who indulge in the practice are liable to a fine of \$200 or imprisonment for 30 days, or both. Children who offend are liable to punishment as Judge Brown may indicate.

CLUB WOMEN SEEK FARM

Will Ask State to Assist in Plan to Extend Benefits of Juvenile Court System.

Persons who may have for disposal a tract of land of 100 to 500 acres in some section of the state that may be reached easily are invited to communicate with any one of five members of the industrial farm committee of the State Federation of Women's clubs which met yesterday to consider plans for advancing the scheme.

An expansion of the Morris home idea is contemplated, whereby boys and girls under the jurisdiction of the juvenile courts of the state may be cared for in some healthy, rural locality, where they will secure proper food and exercise and at the same time acquire a knowledge of cultivating the ground and other useful pursuits.

The committee decided to send a letter to each member of the legislature with a view to securing the cooperation of the state to the extent of making the industrial farm a state institution as a part of the juvenile court system. The women club workers independently, however, in the hope of accomplishing the purpose without state aid, if necessary.

Communications are to be made to Mrs. C. H. McMahon, 40 J street, Salt Lake; Mrs. A. J. Gorman, 404 Second South street, Salt Lake; Mrs. L. A. Ostien, Logan; Mrs. A. B. Corey, Ogden, or Mrs. Ida Smoot, Dusenberry, Provo.

FIRE AT THE DALY - WEST

Hoisting Works Caught Fire From Overheated Smoke-stack.

Park City, Jan. 6.—Yesterday the hoisting works at the Daly-West mine here caught fire from the overheating of one of the smokestacks and for a short time it looked as though the great works were doomed. This is the third time within a comparatively short period, within a year, that fire has been discovered in the same place on the works from the same cause. It seems that the great pipes through the roof at a point where the heat is great and then being of lumber with no protection, when the heat is over the ordinary is in danger of igniting. Yesterday about 2:30 o'clock a fire was discovered and the alarm sounded. In a very short time the employees were at work of extinguishers and were doing all within their power to put out the flames. The work was done and the building saved, but if the fire had been given a few more minutes' time there would have been no handling it. A corrugated roof is to be put on at once and thereby the danger will in a great measure be done away with.

The two crews of wire men working between Park City and Salt Lake, who have been stringing wire for the Independent Telephone company, met yesterday and the lines are now complete. A shipment of rubber tapping tubing which has been delayed in transmission between here and Chicago has been suspended operations of the finishing crew. However, word was received that it was received today and in a very short time now toll service will be established between Park City and the other cities of the state where the Utah company have exchanges.

Simon Frazier, a carpenter at the Silver King mine, was quite badly injured last evening while coming from work on a heavy hand schooner. Since the King road has ceased to be an ore road the men employed at this mine are now using the snow to coast from work. A hand sled will bring a man down from the mine to town in a very short time, and the greater portion of the employees make use of them. Frazier and Joe Sullivan were coming down last night and the schooner attained such a speed that it became unmanageable and at one of the steep places on the highway it jumped the track and slid into a ditch. The down the steep embankment. Sullivan escaped unhurt, but Frazier, who was steering, was thrown against a log and suffered a very badly cut head, besides other severe bruises. The man was brought to town and doctor called. It was found it necessary to take eight stitches in the cut on the injured man's head.

Work about the schooner has been exceptionally slow during the past week, there being but eight arrests and but \$20 fines imposed.

John Hanley, who is at the Park City miners' hospital suffering with an attack of pneumonia, is in a very critical condition. Little hope is had for his recovery.

At the Mount Masonic property the work of installing the new electric power going ahead rapidly under the management of George Hall, and by the first of next week the power will be turned on and the prospecting work pushed ahead as fast as men and machinery can drive it.

ADDITIONAL SOCIETY.

The Caledonian society at its meeting last Wednesday evening elected the following officers for the coming year: Chief, Robert Miller; first vice president, Mrs. D. Nielson; second vice president, Andrew Naesseth; secretary, Mrs. C. Shultz; treasurer, James Sterling; chaplain, Robert Stevenson; guard, Mrs. M. Miller; director, James Adamson. Arrangements for the celebration of the Robert Burns anniversary on Jan. 25 in the Caledonian hall were completed.

Dr. and Mrs. W. W. Addell left Wednesday for Chicago, where the doctor will take a post graduate course at the Northwestern Dental school. They are visiting New York, Philadelphia and Washington before returning in March.

The Bay View club will meet with Mrs. N. A. Dunyon at 23 H street at 2 o'clock tomorrow afternoon. J. Leo Hansen, drawing supervisor, will give a talk on art.

Miss Leone Buice left Wednesday for an extensive visit to California.

Mr. and Mrs. James W. Cahoon of Murray announce the engagement of their daughter, Lerona A., to Nathan R. Liddle of Salt Lake. The wedding will take place Jan. 12.

Lieutenant Nelson Margette, who is now at Fort Flagler, Wash., has been transferred from that post to Fort Snelling in Minnesota and will be in the eighth field artillery, coast artillery, coast artillery. Lieutenant Margette is the son of Mrs. Oliver Oster of this city. He will be on the way to his new post within a week, but will stop over the northern route instead of coming here.

MISS PIERCE INVITES LADIES.

Miss Burkeola Pierce will give a lecture of vital importance to ladies in her studio, 612 Templeton building, at 3 o'clock Tuesday. Doors close promptly at 3:15. Admission free.

Prof. Fredric A. Metcalf, Principal of oratory in the Pierpont School of Oratory and Physical Culture, will open the following new classes:

Heads and expression for ladies and gentlemen, Wednesday night, Jan. 10, at 8 o'clock. Meets every Wednesday night.

Oratory and expression for ladies, Wednesday afternoon, Jan. 10, at 4 o'clock. Meets Wednesday and Friday afternoons at 4 o'clock.

The work will consist of exercises for correct breathing, and reciting, which includes control, voice, articulation, freedom, variety, volume and musical expressiveness in voice; principles of oral expression, gesture drill, expressive reading and reciting, which includes reciting selections from the best authors, covering the fundamental principles of oral expression and furnishing excellent training for mind, voice and body.

Personal drill and suggestion for home practice.

These courses will be of the most practical kind and of benefit to those desiring personal culture, as well as to professional people.

Free open lessons Wednesday, Jan. 10, at the above hours, in the Pierpont studio, 612-613-620 Templeton building. Come and bring your friends.

HIS INJURIES ARE SERIOUS

Provo, Jan. 6.—Alex Gillespie of this city was severely, if not fatally, hurt in one of the Newhouse mines in Beaver county Wednesday, by being struck in the head with a descending cage. Mr. Gillespie heard the cry of a man for help and looked down the shaft as the cage descended. Fortunately he was thrown back, if he had been a man for help he would have fallen down the shaft 100 feet. He received a very severe scalp wound; the skull was crushed on the left side of the head and the lower jaw broken. Mr. Gillespie was taken to the Holy Cross hospital Thursday, where he now is. He regained consciousness after being taken to the hospital, and hopes are entertained of his recovery. Mr. Gillespie is married and has a family and many relatives here.

News of the death of Mrs. C. A. Conover of Richfield has reached Provo. The deceased was 65 years of age and a sister of the late A. G. Conover of this city. She had been ill for several weeks from heart and stomach ailments, which caused her death last evening. The deceased was for many years a matron of the Mantle temple; she has numerous relatives here and in other parts of the state. The funeral will be held at Richfield Sunday, commencing at 1 p. m. Mrs. Johanna Swanson of Ophir died

WOMAN APPLYING THE TORCH

Attempt Made by Firebug and Insane Female Companion to Burn Five-Story New York Tenement—Man Escaped but the Demented Woman Was Captured.

New York, Jan. 6.—A naked and insane woman, directed by a man warningly clad and wearing an overcoat, was detected applying a torch to the hallway of a five-story tenement house in Eldridge street about daybreak today. The strange pair fled when discovered, but the woman was captured. She said her name is Helena Bauer, and that she is a housekeeper of the building she was trying to set on fire, but no one there knew her.

A tenant of the building was awakened by a noise; the pair made and discovered them in the hall. She aroused other occupants and the man and woman started to run for the roof. The man got away, but one of the tenants tripped the woman. When she was questioned she returned a blank stare, but finally gave the name of Helena Bauer. She looked very old and was covered with filth. She was taken to Bellevue hospital. She did not disclose the name of the man, but it is suspected that they have been connected with other incendiary fires. They had not succeeded in setting fire to the hall.

BOUND FOR OLD MEXICO

Party of Excursionists Will Investigate the Cane Sugar and Livestock Interests.

A jolly crowd of excursionists will leave Salt Lake City over the Rio Grande Western at 8:30 o'clock Wednesday morning for the City of Mexico, to be gone a month or six weeks. The object of the trip is to investigate the cane sugar and livestock interests. The party will include a number of the directors of the company and a number of stockholders and prospective stockholders who are not directors.

The main plantation of the company is seventy-five miles west of the City of Mexico. The directors of the company are confident that they have a good proposition. This is considered the best time of the year for visiting Mexico. It is the dry season in that country. The party that leaves Wednesday includes the following:

William M. Roylance, George E. Howe and wife, James L. Meldrum, Erastus Kofford, W. H. Love of Provo; Adam Patterson and Patten E. Gordon, E. A. Miles, Jr., J. V. Allen, Smithfield; J. R. Murdock, Mrs. J. R. Murdock, Judge A. Work and wife, Mrs. C. A. Smith, Mrs. N. A. Smith of Heber; R. Anderson and N. S. Nielson of Mt. Pleasant; Sven, O. Nielsen and Mrs. O. Nielsen of Fairview; T. M. Deal, Springville; Aquila Nebeker, Mrs. Nebeker and Miss Nebeker of Lake Town; James Chipman, Mrs. Chipman, Thomas Riley, Adam Patterson and others, Ogden; S. W. West, J. Green of Salt Lake; William H. Miller, Syracuse, Utah; Heber Benion and son, Taylorsville.

GERMANY'S PLAN GIVEN OUT

Kaiser Will Demand That All the Powers Participate in Policing Moroccan Frontier.

London, Jan. 6.—According to official information received in London from Berlin, Germany not only demands that all the powers shall participate in the execution of reforms in Morocco, but that the work of watching the frontier shall be divided among them, thus realizing the fears expressed by an official of the foreign office in an interview with the Associated Press last Thursday, that the German delegates might insist on regulations clashing with what France considered her special privileges, for instance the policing of the frontier.

Presages Trouble.

If Germany persists in this attitude in the conference it is believed a most serious situation will arise, as France is certain to resist, and Great Britain will support France. The British government, while believing the conference will finally reach a satisfactory settlement, realizes the possibility of a settlement which will remove all the efforts of the delegates to remove, and in this it expects the support of the United States, Spain and Italy.

War Improbable.

The British public is busy with the elections and is not taking much interest in the question. Members of the diplomatic corps believe Germany is putting forward her demands before the meeting of the conference in order to see how they are received. In official and unofficial circles the possibility of war is considered the remotest, even if the conference fails, particularly as those who are inspiring the German policy do not belong to the war party, but are powerful commercial men.

War Improbable.

today at the state mental hospital from apoplexy, at the age of 40 years. The deceased was committed to the hospital Oct. 21, 1894. He was a husband in place. Mrs. W. H. and Henry Ophir, and the remains will be sent there for interment.

Leonard J. Whitney of Mapleton has been granted a divorce from Tryphena Whitney on the grounds of desertion.

Fratt P. Thomas has been appointed administrator of the estate of John S. Thomas, deceased; bond, \$500.

Alva F. Murdock of Heber is at the Provo general hospital, where he has undergone an operation for an internal tumor.

Mrs. Thomas Martin, who has suffered for several years from the effects of a dislocated ankle, has undergone an operation, which it is believed will result in the restoration of the affected limb.

William M. Wilson and Henry Mottram, the well known caterer, have leased the Viennese cafe and will make the place a very attractive resort, increasing, if possible, its present popularity.

The W. C. T. U. will meet Monday afternoon at 3 o'clock with Mrs. W. W. Billings, corner Second and First North streets.

Peterman's Roach Food

A BOON TO HOUSEKEEPERS.

The most improved method to free a house of large or small roaches is to use the contents of a box of "Peterman's Roach Food" at one time. Shake it on joints so that it will penetrate and remain to keep the premises continuously free. Roaches eat it as food; it is the most destructive remedy on this earth to them, and it will not scatter them to other places to live and multiply.

REDDBUGS—"Peterman's Discovery"

(quicksilver)—Bedbugs take it up in the circulation when going over where it is brushed lightly. It is invaluable if brushed on beds when apart, and on bags of picture frames, moldings, etc. It will not rust or harm furniture or bedding. Odorless, and not poisonous.

"Peterman's Discovery" (liquid)—In flexible, handy cans for cracks, walls, mattresses, etc. Odorless, non-explosive.

"Peterman's Ant Food"—A strong powder to kill and drive away ants.

"Peterman's Rat-mouse Food" makes rats or mice wild; they will leave and not return.

Take no other; as time may be even more important than money.

Originated in 1873. Perfected in 1905 by Wm. Peterman, Mfg. Chemist, 54, 56, 58 West 12th St., New York City. London, Eng. Montreal, P. Q.

Sold by all druggists in Salt Lake City and throughout the United States. Sold wholesale and retail by

Z. C. M. I. Drug Store

112-114 Main Street, Salt Lake City.
